

54W LED Wall-Washer Light

T4

Combine power and design to enhance your architectural projects

Product Description

High-performance design for demanding architectural applications.

Made from aerospace-grade aluminum alloy, this light is both sturdy and lightweight, with an anodized finish for enhanced durability.

Available in several colors (Aluminum, Black, White), this light is perfect for outdoor installations that need a subtle and elegant touch on facades.

With its radiator-shaped sides, it ensures optimal heat dissipation, extending the LED lifespan.

Available in white (in several color temperatures)

Applications:

- Facade and building lighting
- Outdoor architectural enhancement
- Accent lighting for monuments and artworks
- Scenography and outdoor event projects
- Garden and landscape illumination

Model	T4
Dimensions	1000 x 48 x 65 (mm)
Power	54W
Voltage	DC24V
Lifespan	50,000 hours
Color Options	Aluminum, Black, White (other colors available upon request)
LED Type	RGBW (4-in-1)
Protection Rating (IP)	IP66 (water and dust resistant)
