Cuttable Screen

Transparent Video Screen: See and Be Seen

Transform your shop window into a media display. Our transparent screens integrate seamlessly into your storefront, turning it into a powerful tool for capturing attention—without sacrificing natural light or the view outside. With high brightness and impeccable image quality, your message commands attention. Mesh-NFL technology creates a memorable visual effect from the street while maintaining a comfortable, open feel inside. The result: a window display that attracts, engages, and leaves a lasting impression.

Turn your shop window into your best salesperson.

Cuttable LED Mesh: Freedom of Window Format

Fully customizable. Starting with strips 35 to 50 cm wide, build screens up to 3 m high—and with no limit on length. Adhesive mounting on your storefront simplifies deployment and reduces installation costs. Moreover, our technicians can **cut the screen** to your specifications.

Intuitive control. Broadcast your videos, promotions, and messages in just a few clicks from your workstation. Thanks to cloud management, centralize control of all your screens, wherever they are located. One screen or multiple screens, endless possibilities.

Your communication under control.
